

Imagine what one child can do...

1 Box Top per month  $\times$  10 months = \$1.00

5 Box Tops per month  $\times$  10 = \$5.00

10 Box Tops per month  $\times$  10 = \$10.00

Imagine what one school can do...

\$1.00  $\times$  1000 students = \$1,000

\$5.00  $\times$  1000 students = \$5,000

\$10.00  $\times$  1000 students = \$11,000
